List of Contributors xvii

Opening lecture
Psychoneuroendocrine profiles of disorders of eating behaviour 1
P.E. GARFINKEL and A.S. KAPLAN

SECTION 1 Basic aspects of eating behaviour

Neurotransmitter/neuromodulator influences on eating 11
J.E. MORLEY and J.E. MITCHELL

Gastro-intestinal peptide hormones and feeding behaviour 21
F. DRAGO , R. BERNARDINI , G. CLEMENTI , G. CONTINELLA , C. VALERIO
N. LAURIA and U. SCAPAGNINI

Neurophysiological effects of centrally administerd peptides in rabbits 31
A. TARTARA , F. SAVOLDI , E. MARCHIONI and M. MAURELLI

Effects of different forms of malnutrition on central neurotransmitter activity and neuroendocrine regulations in experimental animals 39
E. PHILIPP , U. SCHWEIGER , B. SPYRA and K.M. PIRKE

Effects of β-Casomorphins on adult and newborn rats:feeding behaviour and neurochemical aspects 47
P. RESTANI , A. VOLTERRA , N. BRUNELLO , V. BRANTL , G. RACAGNI
and C.L. GALLI

Nutrition and neurotransmitters 55
E. LANZOLA and F. SAVOLDI

Brain neurochemistry and eating behaviour 65
S.F. LEIBOWITZ

Hormone and feeding:cause and effect 73
S. LEVINE

Endocrine changes after aminoacids acute oral load in humans 85
F.S. DIOGUARDI , M. BRIGATTI , M. DELL'OCA , E. FERRARIO
and R. ABBIATI

Biological rhythms and feeding 91
A. REINBERG and F. LEVI

Circadian and ultradian rhythms for hunger behaviour 93
P. CUGINI , G. MURANO , P. LUCIA , C. LETIZIA
and M. MAZZETTI di PIETRALATA

SECTION 2 Obesity

The human energy economy:adaptation to energy imbalance 99
T.B. VAN ITALLIE , H.R. KISSILEFF and M-U. YANG

Thoughts on childhood obesity 105
F. SEVERI , C. LIVIERI , M. CISTERNINO , R. LORINI and A.P. VERRI

Disregulation of plasma β-endorphin in obese patients at different ages 113
A.R. GENAZZANI , F. PETRAGLIA , C. PINTOR , V. SANTORO ,
C. GIOVANNINI , F. SEVERI and F. FACCHINETTI

Oral behaviour and mechanisms of reward 121
C.L. CAZZULLO and R. PAPA

Carbohydrate craving:a disorder of food intake or mood regulation 125
J. WURTMAN

Measurement of hunger and food intake 129
T. SILVERSTONE and E. GOODALL

Obesity and caloric intake:the national health and nutrition examination survey of 1971-1975 135
E.V. ADLIN , L.E. BRAITMAN and J.L. STANTON Jr.

Nocturnal hormonal profiles and sleep patterns in relation to weight loss and dietary change following ileo-jejunal bypass in a massively obese population 141
A.H. CRISP , R.S. KALUCY , B.J. MATTHEWS , J.H. LACEY , M.K. HARTMANN
and M.B. CRUTCHFIELD

Metabolic abnormalities in different types of obesity 149
G. CREPALDI and G. ENZI

Pituitary-gonadal disorders in obese women 151
P.A. BOSSOLO , S. COMIS , A.GIAVARINI , V. PEVERI , A. MENGOZZI ,
G. MARELLI and E.FERRARI

Sexual disturbances in obese male patients on anorexiant teraphy 161
G. ENZI and E.M. INELMEN

Relation of metabolic changes and arterial hypertension to body fat distribution in obese women 163
A. VAILATI , S.B. SOLERTE , D. GIUDICI , A. BOZZETTI , C. VIOLA , S. ADAMO , A. COSTA BARBE' and E. FERRARI

Plasma immunoreactive beta-endorphin response to glucose in obesity and bulimia 171
C. GETTO , W. SWIFT , D. FULLERTON and I. CARLSON

Metabolic and vascular complications in obese type II diabetic patients 177
S.B. SOLERTE , M. FIORAVANTI , G.P. CARNEVALE SCHIANCA , A. BOZZETTI M. DI SANTI and E. FERRARI

Enzymes of glucose metabolism in mononuclear blood cells from non-diabetic and diabetic obese subjects 183
E. BONORA , P. MOGHETTI , M. QUERENA , V. CACCIATORI , S. GIROTTO G. APRILI , G. PIEMONTE and M. MUGGEO

SECTION 3 Anorexia nervosa and bulimia

Effects of experimental starvation on the thyroid axis 189
M.M. FICHTER and K.M. PIRKE

Satiety and taste in eating disorders 199
K. HALMI

Neuroendocrine changes in anorexia nervosa and bulimia: a clinical perspective 205
R.A. VIGERSKY

Chrono-endocrinological aspects of anorexia nervosa 207
E. FERRARI , P.A. BOSSOLO , G. MARELLI , S. FOPPA , P. MAGNI and M.G. ZANOLETTI

Plasma beta-endorphin and beta-lipotropin in anorexia nervosa 219
A.E. PANERAI , F. CAVAGNINI , C. INVITTI , M. LAMPERTICO , P. SACERDOTE and F. BRAMBILLA

Impaired ACTH and cortisol response to CRH in patients with anorexia nervosa 229
F. CAVAGNINI , C. INVITTI , M. PASSAMONTI and E.E. POLLI

Gastric inhibitory polypeptide (GIP) response in anorexia nervosa patients pretreatment and with weight gain 235
K.N. DIXON , T.M. O'DORISIO , S. CATALAND and W.B. ZIPF

Response of the hormones of the gastro-entero-pancreatic axis to a test meal in anorexia nervosa,bulimia and normal controls 239
J.D. NELSON and L. SOLYOM

Neuroendocrine responses in bulimia 241
A.S. KAPLAN , P.E. GARFINKEL , J.J. WARSH and G. BROWN

Brain morphology (CT) and cerebral metabolism (PET) in anorexia nervosa 247
J.C. KRIEG , H.M. EMRICH , H. BACKMUND , K.M. PIRKE , K. HERHOLZ , G. PAWLIK and W.D. HEISS

β_2-Adrenergic receptors and receptor-coupling to adenylate cyclase in mononuclear leukocytes (MNL) of anorexia nervosa and bulimia patients 253
M. LONATI-GALLIGANI and K.M. PIRKE

Anorexia nervosa and obesity:a common psychoendocrine approach 259
F. BRAMBILLA , A. PANERAI , F. CAVAGNINI , C. INVITTI , L. SALI , E. HOST , R. MASSIRONI and M. LAMPERTICO

SECTION 4 Therapeutic approaches in eating disorders

Dietetic treatments of obesity,anorexia and bulimia 275
M. APFELBAUM

Nutritional assessment:a review 281
R. DIONIGI , L. DOMINIONI , V. JEMOS , R. MONICO and P. DAL RI

Pharmacologic and psychologic tretments of anorexia nervosa and bulimia nervosa 287
R. CASPER

Neuropharmacological treatment of obesity 295
I.C. STEWART , P. DONALD and J.F. MUNRO

Long term treatment with anorectic drugs 305
M.O. CARRUBA , V.L. GAROSI , M. PIZZI , M MEMO , C. MISSALE , P.F. SPANO and P. MANTEGAZZA

Fluoxetine induced weight loss in humans 313
J.M. FERGUSON

Anxiety in bulimic disorder:behavioral responses to lactate and isoproterenol infusions 319
D.C. JIMERSON , D.T. GEORGE , T.D. BREWERTON and W.H. KAYE

Dextrofenfluramine and feeding disorders (round table)

Effects of d-fenfluramine on eating disorders 327
S. GARATTINI

Hypothalamic serotonin in control of eating behaviour 343
S.F. LEIBOWITZ and G. SHOR-POSNER

Effects of dextrofenfluramine and other anorectic drugs on experimentally induced hyperphagias 353
M.O. CARRUBA , M. MEMO , C. MISSALE , M. PIZZI , V.L. GAROSI , P.F. SPANO and P. MANTEGAZZA

The efficacy and acceptability of d-fenfluramine (isomeride) in neuroleptic induced obesity 361
T. SILVERSTONE and E. GOODALL

Tolerance to the effcts of d-fenfuramine in rats,hamsters and mice 367
N.E. ROWLAND and J. CARLTON

Dextro-fenfluramine,palatability and conflictual motivation 375
M. FANTINO , M. CABANAC and Y. ROSSETTI

Model system for investigating the actions of anorectic drugs: effect of d-fenfluramine on foor intake,nutrient selection,food preferences,meal patterns,hunger and satiety in healthy human subjects 377
A.J. HILL and J.E. BLUNDELL

Mechanisms of action of dexfenfluramine
Is there a possibility for an integrative approach ? 391
Y. ROLLAND

SUBJECT INDEX 403
